Size:	400*300*2800mm 400*400*2800mm 4000*5000*2800mm 4000*6000*2800mm 4000*8000*2800mm		
Operation	Either motorized with the remote control or manual with hand crank		
Power component	Dooya Motor ,A-motor(CE ,ROHS ,TUV ,UL,SGS)or gear box & hand cank (manual)		

Advantages of our products Louver blade pergolas

1. This Design of Louver blade of the pergolas :It is with the best force to hold ,it is very strong,also force bearing is very good ,so the louver blade is with the best quality ,not easy to get broken or transform,with the best safety for a lot of real estate ,home decoration projects and so on ! We use all aluminium alloy 6063T5 Aluminium for the materials of the louver blade ,posts ,gutter ,best result and the best quality for the outdoor real estate ,buildings ,home decoration projects and so on ,with the best safety advantages . Our products are with the patents from China Intellectual Property Administration ,also with a lot of certifications of honor.Our products are patented ,which means that our products mould belongs to us ,we have the copyrights of the products ,our products are with our own good thoughts of our designers ,the design is very professional ,reasonable ,scientific ,with the best quality !

Side with different products

Achieve An Exclusive Outdoor Experience

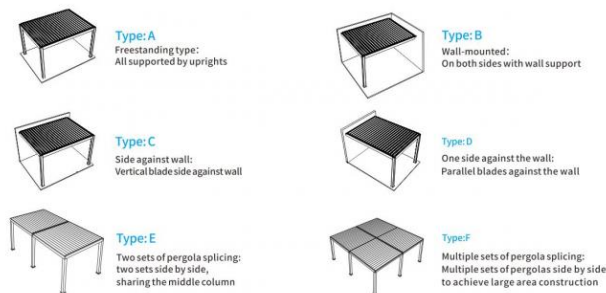

2. Fully Sealed Rubber with the best protection function : The Louver blade Fully Sealed,this technology is all patented ,we can make a difference to bring you the best result for the waterproof ,best protection against the rain.Furthermore, we use 150x150mm big post 2.5mm and 123x170mm 2.1mm big gutter,thicker materials, it can process a rainfall with more than an intensity of 0.04 to 0.05 l/s/m2, drain out the heavy rain quickly. Fully Sealed Design can make sure of the best quality for the protection from the rain ,inside the pergolas ,with the all aluminium accessories ,it is gonna be with the best advantages ,it is with the best quality ,not able ,not easy to get rusted ,get corrosive .

3. Installation Methods

Design and fixation mode

4. Technical Parameters

Technical Parameters

Frame material:	6063-T6 aluminum alloy extrusion
Screen size:	220mm wide, effective waterproof design
Louver material and function:	6063T6 UV resistance, snow resistance, pressure resistance
Motor:	Domestic motor
General voltage:	220V General (special custom)
Control mode:	Remote control
Rotation Angle:	0°C~90°C, press and stop
Dimension:	Length direction: ≤6m Width direction ≤6m
Color:	Sky Grey
Surface treatment:	Powder spray Anodizing

5. Your Best Choice

6. Tips of The Products

When people who enjoy life select an outdoor louvered blade motorized pergola, they might incorporate the following elements to make it even more functional and enjoyable:

- 1. Integrated Lighting:** They could add built-in LED lights along the framework or within the louvers. This would allow them to use the pergola during the evenings, creating a cozy and inviting atmosphere for outdoor dining or relaxation. For example, soft under-louvre lights could illuminate the seating area without being too glaring.
- 2. Heating Elements:** Installing heaters, such as infrared heaters or radiant heat panels, would extend the usability of the pergola into cooler seasons. This would enable them to enjoy the outdoor space even on chilly nights.
- 3. Sound System:** Incorporating a wireless or wired sound system would enhance the entertainment value. They could listen to music or podcasts while spending time under the pergola.
- 4. Mist System:** In hot climates, a misting system could be added to provide a cooling effect and make the area more comfortable during summer days.
- 5. Privacy Screens:** To create a more secluded and private space, they might attach retractable privacy screens along the sides of the pergola.
- 6. Storage Compartments:** Integrated storage within the pergola structure could be used to keep outdoor cushions, blankets, or other accessories neatly organized.
- 7. Planter Boxes:** Attaching planter boxes around the pergola would add greenery and a touch of nature, enhancing the aesthetic appeal and creating a more relaxing environment.
- 8. Weather Sensors:** Automatic weather sensors that adjust the position of the louvers or activate protective covers in case of strong winds or rain would provide added convenience and protection.

By integrating these elements, the outdoor louvered blade motorized pergola would not only be a functional shade structure but also a fully equipped and enjoyable outdoor living space.

FAQ

Q1. Are you trading company or manufacturer?

A: We are a manufacturer specializing in the field of outdoor electric louver blade pergolas, full cassette awnings, retractable awnings, carports, custom made awnings for 27 years!
