<b>Operation</b>	Either motorized with the remote control or manual with hand crank		
<b>Power component</b>	Dooya Motor ,A-motor( CE ,ROHS ,TUV ,UL,SGS )or gear box & hand cank (manual )		

#### Features:

- 1.All Aluminium Alloy louver materials for the products
- 2.Patented leading technology all full sealed for the products in the markets ,Patented Products
- 3.Wind-resistant ,Waterproof ,sun shading and heat insulation ,ventilating
- 4.Closed ,half-open,fully-open for the louver blades of the pergolas
- 5.Hidden Led lights:Soft LED lights are hidden into the blades ,not dazzling ,remote control for the lights,perfecting the night .
- 6.Hidden drainage system : Louver blade pergola has good hidden drainage system ,water goes into the the hidden blade gutters in the roof ,flow into the side gutters and the posts ,outlets in the bottom of the posts
- 7.Fully sealed rubber strips built in all sides of the louver blade ,EPDM Raw Materials
- 8.Assembly ways : Independent installation ,Mount the side against the wall ,Splice Installation

#### Advantages of our products Louver blade pergolas

**1.This Design of Louver blade of the pergolas** :It is with the best force to hold ,it is very strong,also force bearing is very good ,so the louver blade is with the best quality ,not easy to get broken or transform,with the best safety for a lot of real estate ,home decoration projects and so on ! We use all aluminium alloy 6063T5 Aluminium for the materials of the louver blade ,posts ,gutter ,best result and the best quality for the outdoor real estate ,buildings ,home decoration projects and so on ,with the best safety advantages . Our products are with the patents from China Intellectual Property Administration ,also with a lot of certifications of honor.Our products are patented ,which means that our products mould belongs to us ,we have the copyrights of the products ,our products are with our own good thoughts of our designers ,the design is very professional ,reasonable ,scientific ,with the best quality !

Side with different products

Achieve An Exclusive Outdoor Experience

**2.Fully Sealed Rubber with the best protection function** : The Louver blade Fully Sealed,this technology is all patented ,we can make a difference to bring you the best result for the waterproof ,best protection against the rain.Furthermore, we use 150x150mm big post 2.5mm and

123x170mm 2.1mm big gutter, thicker materials, it can process a rainfall with more than an intensity of 0.04 to 0.05 l/s/m<sup>2</sup>, drain out the heavy rain quickly. Fully Sealed Design can make sure of the best quality for the protection from the rain, inside the pergolas, with the all aluminium accessories, it is gonna be with the best advantages, it is with the best quality, not able, not easy to get rusted, get corrosive.

### 3. Installation Methods

#### Design and fixation mode

**Type: A**  
Freestanding type:  
All supported by uprights

**Type: B**  
Wall-mounted:  
On both sides with wall support

**Type: C**  
Side against wall:  
Vertical blade side against wall

**Type: D**  
One side against the wall:  
Parallel blades against the wall

**Type: E**  
Two sets of pergola splicing:  
two sets side by side,  
sharing the middle column

**Type: F**  
Multiple sets of pergola splicing:  
Multiple sets of pergolas side by side  
to achieve large area construction

### 4. Technical Parameters

#### Technical Parameters

Frame material: 6063-T6 aluminum alloy extrusion

Screen size: 220mm wide, effective waterproof design

Louver material and function: 6063T6 UV resistance, snow resistance, pressure resistance

Motor: Domestic motor

General voltage: 220V General (special custom)

Control mode: Remote control

Rotation Angle: 0°C~90°C, press and stop

Dimension: Length direction: L≤6m Width direction ≤6m

Color: Sky Grey

Surface treatment: Powder spray Anodizing

Lighting    Heater    Loudspeaker    Lifting Window    Sliding door    Screen

## 6.Tips of the Products

### **An outdoor aluminium louvered blade motorized pergola in black can offer several benefits and positive effects:**

Firstly, a black pergola creates a bold and dramatic statement. It adds a touch of mystery and elegance to the outdoor space. For instance, in a modern and minimalist residential area, a black pergola can stand out as a distinctive feature, enhancing the overall aesthetic appeal.

Black provides excellent contrast. It can make the surrounding colors and elements pop, such as light-colored furniture or green plants. This contrast can create a visually striking and balanced outdoor setting.

It offers a sense of privacy. The dark color can make the pergola area feel more secluded and intimate, allowing residents to enjoy a private retreat within the larger residential complex.

Black is known for its ability to hide dirt and grime to some extent. This means that it may require less frequent cleaning and maintenance compared to lighter colors, which show marks and stains more easily.

In terms of heat absorption, a black pergola can absorb more heat during the day. This can be beneficial in cooler climates or during evenings, providing a warmer and more inviting space for socializing or relaxation.

A black pergola can also blend well with various styles of outdoor decor and architecture. Whether the residential area has a traditional or contemporary look, a black pergola can be incorporated seamlessly.

For example, in a garden setting with colorful flowers and a white fence, a black pergola can act as a focal point, adding depth and character to the landscape.
