PRODUCT FEATURE

The louver blade pergola is a high-quality aluminum alloy pavilion suitable for outdoor space expansion. It is made of durable aluminum alloy material, carefully designed and manufactured, and can withstand various climate conditions, with excellent durability and corrosion resistance.

The top of the louver blade pergola adopts a shutter design, and the shutters can be adjusted as needed to control the entry of sunlight and rain. By adjusting the angle of the shutters, you can achieve different degrees of shading and ventilation effects, making your outdoor space more comfortable.

The louver blade pergola is a multi-functional outdoor shading facility that can not only provide comfortable shading and ventilation effects, but also protect your outdoor space from various natural factors. Whether you are in a garden, terrace, courtyard or other outdoor place, the louver blade pergola can provide you with a perfect shading solution.

- 1** All-aluminum alloy structure
- 2** Resistance to wind
- 3** LED lighting system
- 4** The blade rotation at 0°C~90°C

Double blade

Enhanced thermal insulation

Super wind resistance

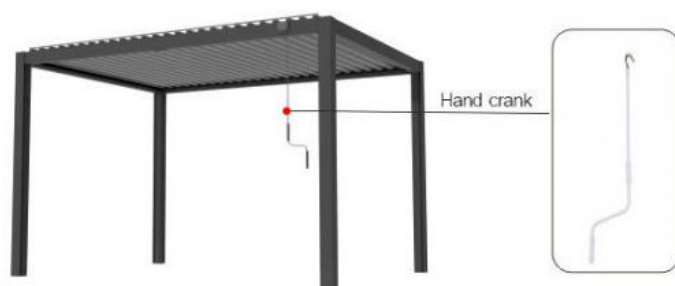

Different Controls
